SHEEPSKIN SALES.
Large quantities of heavy sheepskins were yesterday submitted at the various auction sales. The market for the former was unaltered, but was weaker for the latter. Mort and Co., of New York, sold 100 skins to J. B. Jones, and Devlin, Limited, reported the clearance of California goatskins; these butchers' tops sold at 30c, extra good to 60c, and the remainder at 20c to 25c. Sheepskins were sold at 10c to 15c; dry skins to 40c, fair aged to 60c, extra good to 80c.

CARPENTERS AND JOINERS SOCIETIES.
TO THE EDITOR OF THE HERALD.
Sir,—I notice in your leader of Wednesday's issue your comment on the circular submitted to the Master Builders' Association by the Amalgamated Carpenters and Joiners' Societies. If you would be kind enough to insert the details of the circumstances and rules of the societies, I am sure they would be submitted, you would confer a favour and justice at the same time, for your leader neither does fairly nor justly. We ask that our demands be righteously discussed; but the fact that we are not a union is no excuse. We are a society, and the whole matter could be discussed, and an amicable settlement of the difficulty between the employers and the unemployed arrived at. I would further point out that the building trade is the backbone of the city, and that we make some 16 months a year, and reduce the men's wages from 10c.

The following is a copy of the circular referred to, and the working rules:—*Sydney, September 3d, 1888.* To Mr. JAMES BURRILL, an instructed by the Carpenters' and Joiners' Society of the City of Sydney, and the members of the above held in the Protestant Hall, Sydney, to adopt and consider rules drawn up by a joint committee of the societies in regard to the master's wages to be paid to journeymen and apprentices. The following are the rules were earnestly discussed, and unanimously carried. Trusting they will meet with your approval, also, as we recognized that the same would be for the benefit of the trade, and, we willingly submit to a corresponding reduction in the wages so long as this pressure might last; but confidence

The wages when this pressure is over. Unless this time there can be no justice in reducing the wages in times of low profits and adversity. We now consider as trade laws those which are made by the employers and their agents and partners and joiners is greater. That our just, fair, and legitimate demands be rightfully discussed and acknowledged. We are also of opinion that a code of working rules, or a set of regulations, should be made, and that all the employers and employees it of the greatest importance, as it would tend to keep the amicable relationship now existing between them from breaking up. Should the stated rules be approved by both parties, we will have no objection if they are willing to meet a committee of an equal number to discuss the rules, which shall be signed by the committee, and that the same be put into operation on the first day of October, 1888. Anticipating a favourable reply to this communication on or before September 12, I am, &c., W. J. CORBETT, Secretary.

Working Rules of the Carpenters and Joiners of Sydney and Suburbs.—Rule 1. That the working time be 48 hours per week. Rule 2. That the standard rate of wages for labour be 3d. per hour. Rule 3. That all overtime be paid time-and-a-half.

All employees shall be paid and also employed by any employer, and sent two miles from where employed, shall receive fares both ways, or walking time allowed. Rule 5. That all piece work or time-and-a-half shall be paid for the first hour of commencement to pay as soon as they cease work on Saturday; if not time-and-a-half be charged for waiting. Firms shall be charged for waiting for the first hour of work, or time-and-half will be charged for waiting. Rule 7. Any employer discharging an employee without giving notice shall be charged for waiting. Rule 8. That for charging tools, also the employee to give two hours' notice to the employer or his representative. Rule 8. That for charging tools, also the employee to give two hours' notice to the employer or his representative. Rule 9. A board of conciliation formed of an equal number of employers and employees shall be appointed by the board of employers. Rule 10. A public meeting at Broken Hill discussed the question of water supply and sanitation, and resolved to send a telegram to the Colonial Secretary pointing out the delay which has occurred in dealing with the incorporation of the place.

In addressing the electors of East Maitland after his unanimous re-election, the MINISTER for LANDS took the opportunity of giving an

outline of the present position of the public estate, and of some of the chief features in the relations between the State and its debtors and tenants. It is natural for a new occupant of the office to make a survey of the situation, and to take a glance over the wide extent of the business which is about to pass through his hands. Any thoughtful man just assuming these responsibilities may well feel a tendency to

the prosperity of the colony depend in a considerable degree upon the manner in which the Department is administered, but it is also patent that there are defects in the law which even the best administration cannot cure, and the difficulties of the situation are immensely increased by natural causes which neither legislation nor administration can be expected to overmaster at a short notice. Mr. BUNYER, before ascending office, stipulated that he should not be granted to bring in either a

large Land Bill, or any Land Bill during the next session, unless necessity demanded it. That was, we think, a sound view to take of the matter. Some few weeks at least of experience in office are required before he can well determine to his own satisfaction either as to the absolute necessity for any Land Bill during the next session, or as to the probability of passing one. The business of the country is in such a state that it is useless to waste time upon

the impracticable; and the utmost that can be said is, that if the clearly-proved necessity for some measure of very limited range, and

VICTORIA.

A return was laid on the table of the Assembly today showing that the total imports of oats and barley during the fortnight ending September 11, the day preceding the imposition of the higher duty, amounted to 55,088 cwt. of oats, paying 25055 17s. duty; and 1722 cwt. of barley, the duty paid being 1722s. 4d.

On Wednesday night Captain Andrew McIntyre, of the steamship *Beeswing*, expired at his residence, Williamstown, after a long illness. The deceased had been engaged in the shipping trade of this port for over 30 years.

The monthly meeting of the Court of Directors of the Royal Humane Society of Australia was held on Wednesday. A bona fide was awarded to George C. Thomson, of Wyalah, Richmond River, New South Wales, for rescuing Thomas Maxwell from drowning in the Richmond River on May 15. The case of the crew of the *Steamer Fanny*, in rescuing a number of settlers on the Logan River, Queensland, during the flood in January last year, was not dealt with, as it was not brought under notice till more than 12 months had elapsed after the rescue.

The first special show in connection with the Exhibition took place today at the Avenue of Nations, under the Northern Dome. Tables were arranged for the display of dairy exhibits. The show is to last three days. The work of judging will be done by a jury of 12, with the Hon. James Buchanan as chairman. New South Wales is not represented in the prize list.

This afternoon Sir James MacLennan gave his weekly luncheon.

To-day F. Beaumont, business manager for M. Simonsen, was fined in the District Court £5 for allowing persons to stand in the passage of the theatre, and £5 for placing chairs in the gangway, on the opening night of the "Spanish Student" at the Opera House.

A luncheon in connection with the Municipal Association of Victoria was held to-day. Mr. Gillies, in responding to the toast of the Ministry, referred to the necessity of the Government not being led away by temporary excitement, but they ought to look ahead that the best interests of the colony as a whole might be consulted. The Government was at present in the position of not being able to proceed with the business of the country, although they had a phalanx of avowed supporters at their back, and in his judgment the course now proposed was the best one which could be adopted.

The attendance at the Exhibition to-day was 9776, notwithstanding the wet afternoon. An orchestral concert was given in the afternoon. The second performance of Mr. Cowen's "Ruth" was given in the evening. A banquet to celebrate the anniversary of Italian unity took place to-night. About 80 Italians were present. The toast "The day we celebrate" was enthusiastically honoured.

QUEENSLAND.

BRISBANE, THURSDAY.
The amount of specie which arrived by the *Chyaboo*, consigned to the Government, was £57,800 in silver, and £500 in bronze. The Banks made application to the Treasury to be supplied with the amount named, in order to renew the worn-out coins. Several banks took £10,000 each.

SOUTH AUSTRALIA.

ADELAIDE, THURSDAY.
Thunderstorms and showers are reported from a few mid-northern districts beyond Port Augusta. The north-west track is closed to farm. Wool wagons have been abandoned, and the bullocks brought down for water. In some cases the teamsters have lost a number of bullocks from the drought. Unless the rain has extended inland, the north-western mail will have to be carried by camel.

The September Show of the Royal Agricultural Society was opened to-day at the Exhibition grounds this morning. The exhibits of horses, cattle, sheep, and dairy produce are highly satisfactory, while the display of other exhibits was remarkably good.

Mr. G. F. Noel, a prominent member of the Adelaide Chess Club, died to-day from consumption. He received the first prize, a gold cup, in the handicap tournament.

TASMANIA.

HOBART, THURSDAY.
The financial proposals will be discussed in the Assembly to-morrow. Objection is taken to the reduction of the £5000 defence vote. The Assembly to-night rejected the Eight Hours Bill by a large majority.

It is understood that the Council will go on with all but the financial business, but it will not further supply than has already been granted to the end of the year.

NEW ZEALAND.

AUCKLAND, THURSDAY.
It is reported here that the *Chyaboo*, the ocean steamer from New Caledonia, is alive, and has succeeded in reaching another country.

It is now stated that the report to the effect that the American Government had offered to raise their contributions to the San Francisco mail service to £10,000 is correct.

The notes, cheques, &c. in the private box in the large safe are in the same condition as before the fire.

DECREASE OF THE RABBIT PEST IN QUEENSLAND.

(BY TELEGRAPH.)
(FROM OUR CORRESPONDENT.)

BRISBANE, THURSDAY.
It is unlikely the Government will take any action this session in regard to the rabbit pest, although a measure of a drastic character has been drafted by Mr. Donaldson, Government Inspector, who is now in Brisbane. He has advised the Government that rabbits are now only found in extremely isolated localities, and that the ample measures still being taken for their destruction, it is with the greatest difficulty that one can be found at all.

HORSE PARADE AT INVERELL.

(FROM OUR CORRESPONDENT.)

INVERELL, THURSDAY.
A horse parade, under the auspices of the F. and A. Association, took place on the show ground to-day. The parade had been proclaimed a public holiday. Some splendid animals were exhibited in blood, draught, coaching, and pony classes. The display was not so numerous as might have been expected, which is accounted for by the parade at Glen Innes which was held yesterday.

DESPATCH OF MILITARY AND POLICE TO NEW LAMBTON.

ARRESTS OF MINERS FOR RIOTOUS CONDUCT.

(BY TELEGRAPH.)
(FROM OUR SPECIAL CORRESPONDENT.)

NEWCASTLE, THURSDAY.

The extreme length to which a section of the miners carried their proceedings on Tuesday at the New Lambton pit was the means to-day of their defence being set at naught, and of protection both to the master and legitimate labouring man being afforded.

The prisoners will long remain fresh in the minds of those who gathered at the railway station before 7 o'clock to witness the departure of large bodies of troops and police to the New Lambton mine.

It became known yesterday throughout the district that the Government was sending substantial support in the shape of the Permanent Artillery and extra constables; consequently a large number of persons collected at early evening to witness the arrival of the troops and to see their departure for the scene of the miners' recent triumph. A special train was ready at 7 o'clock, and no time was lost in getting out to Adamstown.

A few miners and their wives and families came out of their houses as the train passed to satisfy themselves that the military were really going to the mine, but no demonstration of any kind happened, the cases which they are required to assist, and the police in this respect are regarded the local pecuniary support which might otherwise have been secured.

There is a considerable feeling of dissatisfaction among the unionists here on account of the Newcastle miners' representatives having neglected to send any communication whatever regarding the strike. The only information received has been through the press, and a copy of the manifesto. The unionists consider they are entitled at the least to a notice of the case which they are required to assist, and the police in this respect are regarded the local pecuniary support which might otherwise have been secured.

TO THE EDITOR OF THE HERALD.
Sir—It seems to me that Mr. W. Nollie's letter in your issue of yesterday is decidedly more in the line of what I read in the letter, in that capital should find all necessary (including, I assume, labour at current rates) till the mine is exhausted, and then the owner should be allowed to proceed, and generally allow capital the better half. I certainly cannot see in your correspondent's letter any provision for the miners' co-operation with capital excepting the miners in such a position that you can "put it off" on the monthly account of sales of coal the owner gets one-half the labourer the other. Will he kindly explain at what he has in mind the miners will still the police in this respect are regarded the local pecuniary support which might otherwise have been secured.

TO THE EDITOR OF THE HERALD.
Sir—Your impression of the 14th inst. is before me, containing an account of the conference of delegates, and as a Newcastle shareholder, I solicit your permission to make a few remarks thereon. In the first place, it seems to me that the delegates who were present at the conference were not representative of the miners. Last night, temper, or discretion could scarcely have been shown on either side. As a shareholder, I have no objection to the delegates, but I have no sympathy whatever with the high-handed, dictatorial manner in which Mr. Gregson has conducted the conference. The owners may be able to get their way, but the miners will not be satisfied. I am, Sir, your obedient servant, J. M. GREGSON.

PERSONATION AT THE CARRINGTON

A remarkable case of perspiration was witnessed at the Carrington Grounds last night during the running of the September Handicap. In the 49th heat the winner was a pedestrian entered under the name of Phillips. One of the men he defeated was a well-known and very fast runner named Donaldson, and Phillips beat him by two yards. The committee decided to ask some questions of the winner as to his antecedents. When Phillips was called for, a stout ruddy-faced young man with a black moustache and small side whiskers walked into the committee-room. It was at once apparent that these facial ornaments were merely gummed on, and on being asked to do so he took both moustache and whiskers

off. In reply to questions from the committee, he stated that his name was Joseph Williamson, of Lower Goulburn-street, that he had never run before, and that he was not the man who had won the heat under the name of Phillips. Up till then it was confidently believed that he was really the man who had won, but further inquiries led to the opinion that Williamson had simply had used as a sparring-horse, and that when the

pedestrian who ran under the name of Phillips went back into the dressing-room, off the track, the facial disfigurement which he had used was taken off and slipped on to Williamson so that he might appear as Phillips. Mr. George, manager of the track, is of opinion that Williamson and Phillips are identical, as he is sure it was Williamson who took from him the coloured sack the pedestrians wear, each of the four tracks having a different coloured sack. The pedestrians were called in to identify Williamson as the man who won the heat, but none could do so positively. One of them, however, said that the man before the committee was named Sims, and Williamson then stated that Sims was his name, and that he had been given £5 to run in the heat, although he persisted that they were strangers to

one another. A little later on the runner got caught and the referee called for a foul. It was found that the runner was under the name of C.M.Parlane the same evening, beating Ellen, Brav, and Cavanagh. All search for Phillips proved unavailing. Certain indications in the betting over the horse proved that some parties outside must have been very confident that Phillips would win, and it is probable that the committee got roughly through the lents in which the runner was caught. It is probable that the committee concluded that the running in both was singularly slow, as the one was done in nine yards over even, and the other in eleven yards over.

CASUALTIES.

A schoolboy named Percy Eland, 12 years of age, residing with his parents at 16, Muller-street, Balmain, was taken to the Sydney Hospital last night, probably as a result of a fall from a tree. It was reported that he found the lead in his back.

The Woolloomooloo entrance to the Domain, bleeding from a wound of the foot. On examination by Dr. H. W. Orr, he was found to be suffering from an incised wound of the foot. The patient, who stated that the accident was caused whilst chopping wood, was placed in one of the wards for treatment.

A lad named William Lovell, aged 9 years, residing with his parents at 242, Crown-street, whilst washing his legs in the sea at the Domain, was struck on the foot by a broken glass bottle, inflicting a lacerated wound 3½ in. in length from his right hip. Constable Phalen (No. 35ation) conveyed the lad to the Sydney Hospital, where his injury was treated. The patient was placed in one of the wards and was dressed by Dr. Orr, and he was placed in one of the wards for treatment.

The saloon passenger who died on the s.s. Koonwarra, (en route from Brisbane to Melbourne) shortly before the vessel arrived in Sydney on Friday morning last, was yes-
